## LETTER FROM **OUR PRESIDENT** **Patrick J. Gavin, MPH, MBA**

### **Advancements are taking shape every day at Hunterdon Health.**

Now in the third year of our strategic plan, Hunterdon Health continues to grow, innovate, and transform the way we deliver care. With a focus on distinction, growth, and infrastructure, we are making major strides to enhance the patient experience and bring the latest advancements to our region.

Hunterdon Health has long been recognized among the best hospitals in New Jersey, a reflection of the dedication of our physicians, nurses, and staff. This year, that commitment is taking shape in exciting, tangible ways:

- The new wing in our Emergency Department is open.
- The initial phase of the hospital lobby renovation is underway, creating a more welcoming and accessible space for patients and families.
- A multi-phased Operating Room renovation is in progress, ensuring state-of-the-art surgical care for years to come.
- The Phillips-Barber expansion is entering its final stages and will open this summer, strengthening the future of family medicine in our community.
- A new Linear Accelerator has arrived at the Cancer Center, bringing cutting-edge radiation therapy to patients, with treatment expected to begin in May.
- EPIC, our new electronic medical record system, is on the horizon, modernizing the way we connect care across all of Hunterdon Health.
- The ribbon-cutting for our Cancer Center renovation is planned for early next year, marking a new era in comprehensive cancer treatment.

None of this progress happens in isolation. It is fueled by the dedication of our teams, the vision of our leadership, and, most importantly, the generosity of those who make this work possible. To our donors, supporters, and advocates—thank you. Your investment in healthcare directly impacts the lives of every patient who walks through our doors.

We look forward to continuing this journey with you and celebrating the milestones ahead.

Sincerely,

A handwritten signature in dark ink that reads "Patrick J. Gavin". The signature is fluid and cursive.

Patrick J. Gavin, MPH, MBA  
President & CEO, Hunterdon Health

## LETTER FROM **OUR FOUNDATION BOARD CHAIR** **Suzanne Schwanda**

**At Hunterdon Health,** we often say that our Health System is more than just a place of healing—it's a reflection of the people who believe in it. And this past year, you proved just how true that is.

Because of your generosity, over \$3.3 million was raised in 2024, fueling the future of healthcare in our community. Every dollar represents a commitment to our patients, our caregivers, and our mission—to ensure that exceptional, compassionate care is always available close to home.

It's easy to look at the progress happening around us—the final stages of the Phillips-Barber expansion (soon to be the "Dr. Laurence M. Russell, Jr. Campus"), the latest advancements at the Cancer Center—and see the impact of your generosity in bricks and mortar. But the real impact is in the families who feel supported, the patients who receive life-changing treatment, and the nurses and doctors who have the tools they need to provide the best care possible.

Hunterdon Health is about community health. We serve our friends, our neighbors, and even our own families. None of this would be possible without you. On behalf of the Hunterdon Health Foundation Board of Trustees, I would like to thank you for believing in this mission, for making a difference, and most of all, for being part of the Hunterdon Health family.

With deepest gratitude,

A handwritten signature in cursive script that reads "Suzanne L. Schwanda". The ink is dark and the signature is fluid and elegant.

Suzanne Schwanda  
Chair, Board of Trustees  
Hunterdon Health Foundation

## LETTER FROM **OUR SENIOR VICE PRESIDENT** **Phil Beekman**

**Each year,** we set out to build something greater—to push the boundaries of what’s possible for Hunterdon Health. 2024 was an incredible year, but 2025 will be even better.

This year, we’re building on the momentum of the Main Street Half Marathon and 4-Mile Walk. What started as a race has become something so much bigger: a movement of people rallying around patients at Hunterdon Regional Cancer Center. We look forward to welcoming even more teams and participants, strengthening the impact of this event in ways we couldn’t have imagined just a few years ago.

The Crystal Evening is featuring something special in 2025! The night will begin with a cocktail reception featuring a private performance by The Nerds, giving guests a unique way to kick off the evening. Later, the celebration will expand into a public concert, bringing even more people together in support of Hunterdon Health.

And, of course, this summer marks the long-anticipated opening of the expanded Phillips-Barber Family Medicine Center. This project has been years in the making, and when its doors open, it will stand as a testament to what philanthropy makes possible. The new space will allow us to serve more patients, train the next generation of family medicine providers, and strengthen healthcare access for years to come. It will be a milestone well worth celebrating.

Every step forward, every new opportunity, every milestone we reach—it all happens because of you. Your generosity shapes the future of Hunterdon Health, and we are incredibly grateful to have you by our side.

See you at the finish line, on the dance floor, and at the ribbon-cutting!

With gratitude,

A handwritten signature in dark ink, appearing to read 'Phil Beekman', written over a light blue circular background.

Phil Beekman  
Senior Vice President, Hunterdon Health Foundation

# A SURGICAL UPGRADE:

## Investing in State-of-the-Art Operating Suites

Excitement is building for the upcoming renovation and expansion of Hunterdon's surgical facilities, and it's clear why: this project promises bigger, better, and more in the world of surgery for the people of Hunterdon.

**"We're committed to providing the best care for our community and that means keeping surgeries in the hospital and continuing to draw the most highly skilled caregivers."**

Plans are underway for major upgrades to the six existing operating rooms and the addition of two brand-new operating suites. These improvements will create optimal space to care for more people, shorten wait times, and offer faster scheduling. And the enhancements are sure to attract more top-tier physicians and surgeons from across the nation, strengthening Hunterdon's ability to provide the highest level of expertise locally.

At the heart of this expansion is the dedication of Hunterdon's doctors, like Michael Silber, DO and Michael Pollack, MD, who have spent years living and working alongside their patients. "We're not just doctors; we're members of this community," says Dr. Silber. "Our goal is to ensure that our friends, families, and neighbors have access to the best care, right here where they live."

Drs. Pollack and Silber have been key to the health system's success, combining their experience as an orthopedic surgeon and anesthesiologist, respectively, with strong leadership roles. They've both made lasting contributions through their work on various committees and boards, guiding the system's growth and commitment to quality care.

For both doctors, this project is deeply personal. "We're committed to providing the best care for our community and that means keeping surgeries in the hospital and continuing to draw the most highly skilled caregivers," says Dr. Pollack. "This expansion is critical to those things, and without philanthropy, it wouldn't happen."

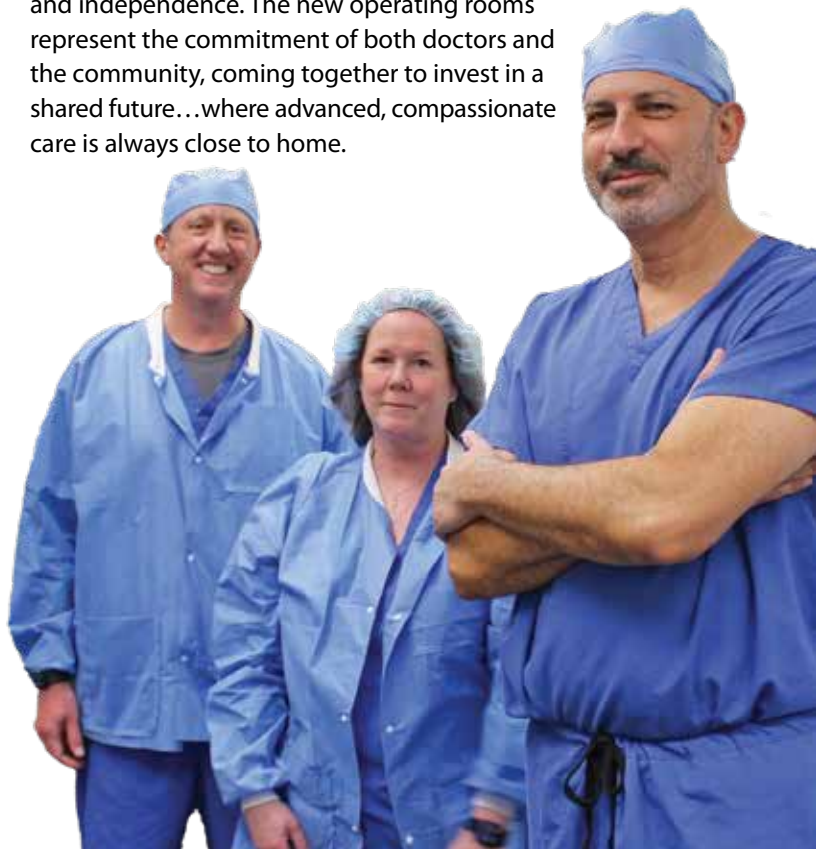

Their dedication reflects a strong culture across the health system. Hunterdon doctors don't just begin their careers and move on; they build both their careers and their lives here in the community they care for. Physicians from every

department—whether it's cardiovascular, urology, anesthesia, orthopedics, or others—generously invest in the growth of the health system and the well-being of the neighbors they serve. Their work doesn't end in the operating room. They give their time, support, and resources to improve the system.

These medical groups are driving the project forward with donations and more. The multi-phase plan will span several years evolving step by step to create a lasting impact that highlights the power of community-driven healthcare. It's a collective effort of individuals, organizations, and local medical professionals all committed to providing high-quality, patient-centered care. "Philanthropy makes this possible," says Dr. Silber. "It allows us to stay independent and give our community the care it deserves."

The message is clear: the strength of the hospital lies in its people. Dr. Pollack emphasizes the importance of those who have benefited from the hospital's care in joining the mission. "The support of every person who calls Hunterdon their hospital is essential in helping us continue to deliver exceptional care."

In a healthcare world that's increasingly controlled by large systems, Hunterdon stands out for its local focus and independence. The new operating rooms represent the commitment of both doctors and the community, coming together to invest in a shared future...where advanced, compassionate care is always close to home.

# COMFORT MEETS CARE:

## Enhancing Your Trusted Cancer Care

Step through the doors of Hunterdon Regional Cancer Center today, and you'll find a place filled with warmth, compassion, and a team of medical professionals who are not just experts but neighbors—people you see at the grocery store, in the coffee shop, and on the sidelines at local high school games. That personal connection is the heart of the care you find inside these walls.

And now, with the generous support of the community, the home to that care is getting a well-deserved makeover.

Built in 1999, Hunterdon Regional Cancer Center has been a place of healing and hope for thousands of local families. Exceptional, personal care has always been our priority. And now, we're refreshing the space to match the excellence of the care within.

In the coming months, the transformation will begin. From new flooring and paint to modern furniture and thoughtful design touches, the building will come to life with renewed comforts and an updated look. The difference will be felt from the moment you walk through the doors.

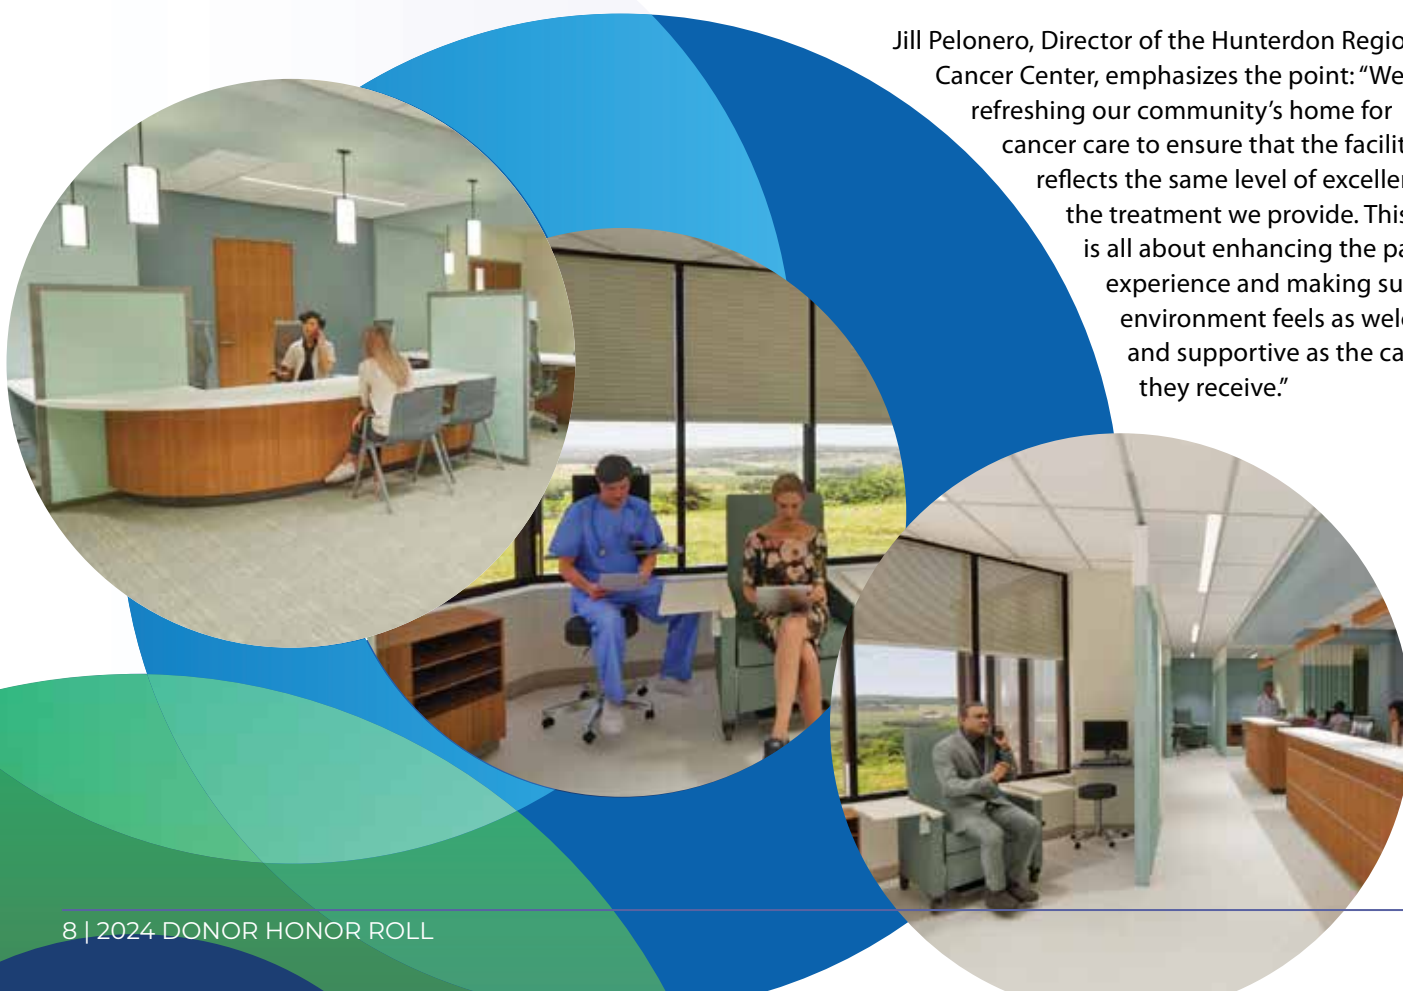

A brand new atrium, flooded with natural light, will draw you into an open and calming space. Expanded and remodeled waiting areas will offer patients and their loved ones comfortable areas to gather, relax, and connect. Treatment bays will be redesigned with modern conveniences and adaptable privacy options to meet each patient's needs and preferences.

Barbara Tofani, Assistant Vice President of Outpatient and Ambulatory Services, notes, "Our new layout will allow patients to choose their level of privacy, ensuring they feel comfortable and supported throughout their treatment journey."

Even the pharmacy space—where life-saving medications are prepared—will be redesigned to meet the highest standards of efficiency and safety.

Each detail of the project is designed to ensure that every aspect of care feels personal, seamless, and unrushed. It's a purposeful transformation—one that not only enhances the space but upholds the high standards of care the people of Hunterdon have always trusted and relied on.

Jill Pelonero, Director of the Hunterdon Regional Cancer Center, emphasizes the point: "We're refreshing our community's home for cancer care to ensure that the facility reflects the same level of excellence as the treatment we provide. This update is all about enhancing the patient experience and making sure the environment feels as welcoming and supportive as the care they receive."

Dr. Megha Shah, oncologist and member of the Hunterdon Health Foundation Board of Trustees, adds: “We know that a cancer diagnosis is never easy, and if we can bring even a little more comfort to our patients through this renovation, then that’s what we’re striving for.”

This renovation is special. It’s rallying support from doctors, patients, and the entire community—a testament to the deep sense of ownership felt by the people of Hunterdon County. Because this place isn’t just a treatment center; it’s a vital part of so many lives.

Dr. Shah captures the heart behind this project: “Our patients don’t just see the Cancer Center as a place they go for treatment—it becomes a part of their lives, a place they feel connected to, almost like their own. This renovation ensures that the space reflects the warmth, hope, and excellence of the care we provide every day.”

It’s a transformation powered by the generosity of our community. Every dollar of this project is funded by donors who believe their neighbors deserve the very best care, close to home. Gifts of all sizes—from individuals, families, businesses, and organizations are bringing this vision to life, making sure that no one has to face cancer in a space that feels outdated or impersonal.

The look will be a welcome change, but the heart of our Cancer Center will remain the same. Our team of doctors and nurses will continue providing top-tier, compassionate care, just as they always have. The same friendly faces will greet you, the same expert hands will guide your treatment, and the same commitment to excellence will drive everything we do.

When the renovations are done, patients and family members will step into a space designed with their comfort and healing in mind—a powerful testament to the care provided here and to what is possible when a community comes together.

**“Our new layout will allow patients to choose their level of privacy, ensuring they feel comfortable and supported throughout their treatment journey.”**

# MASTERING MEDICINE

## Through Modern Simulation

In patient care, lives are on the line. There is no room for error. Healthcare professionals must act quickly and confidently. To help them prepare for high-pressure situations, Hunterdon Health has created a new Simulation Lab—a place where practice leads to mastery, and mastery leads to exceptional care.

The new Simulation Lab, with its first training sessions scheduled to begin in May, offers a cutting-edge environment for all members of the healthcare team to practice complex procedures and respond to emergency scenarios. Offering a safe, controlled space where they can refine their skills, practice advanced techniques, and build confidence, empowering caregivers to continually sharpen their abilities, without any patient risk.

Located on 4-East in the hospital, the renovated space includes a fully equipped simulation area, a control room for the high-tech mannequins and audio/visual systems, and a debrief room for reviewing and discussing performance.

Both individuals and entire care teams can experiment with new methods, enhance their skills, and learn from mistakes. By practicing real-life scenarios with multiple departments, individuals get better at what they do, and teams improve coordination and communication. This collaborative setup strengthens teamwork, helping everyone understand their roles and prepare for critical moments with confidence.

Thanks to the generosity of our community, including a lead grant from The Large Foundation and the Hunterdon Health Auxiliary, the new state-of-the-art Simulation Lab at Hunterdon Health is poised to transform healthcare training.

"This is the way of education now," stated Beth Ort, MSN, RN, CCRN, Staff Development Instructor. "Our learners crave hands-on experience, and this lab will provide just that. The Hospital Staff is eager to get in there and start using it."

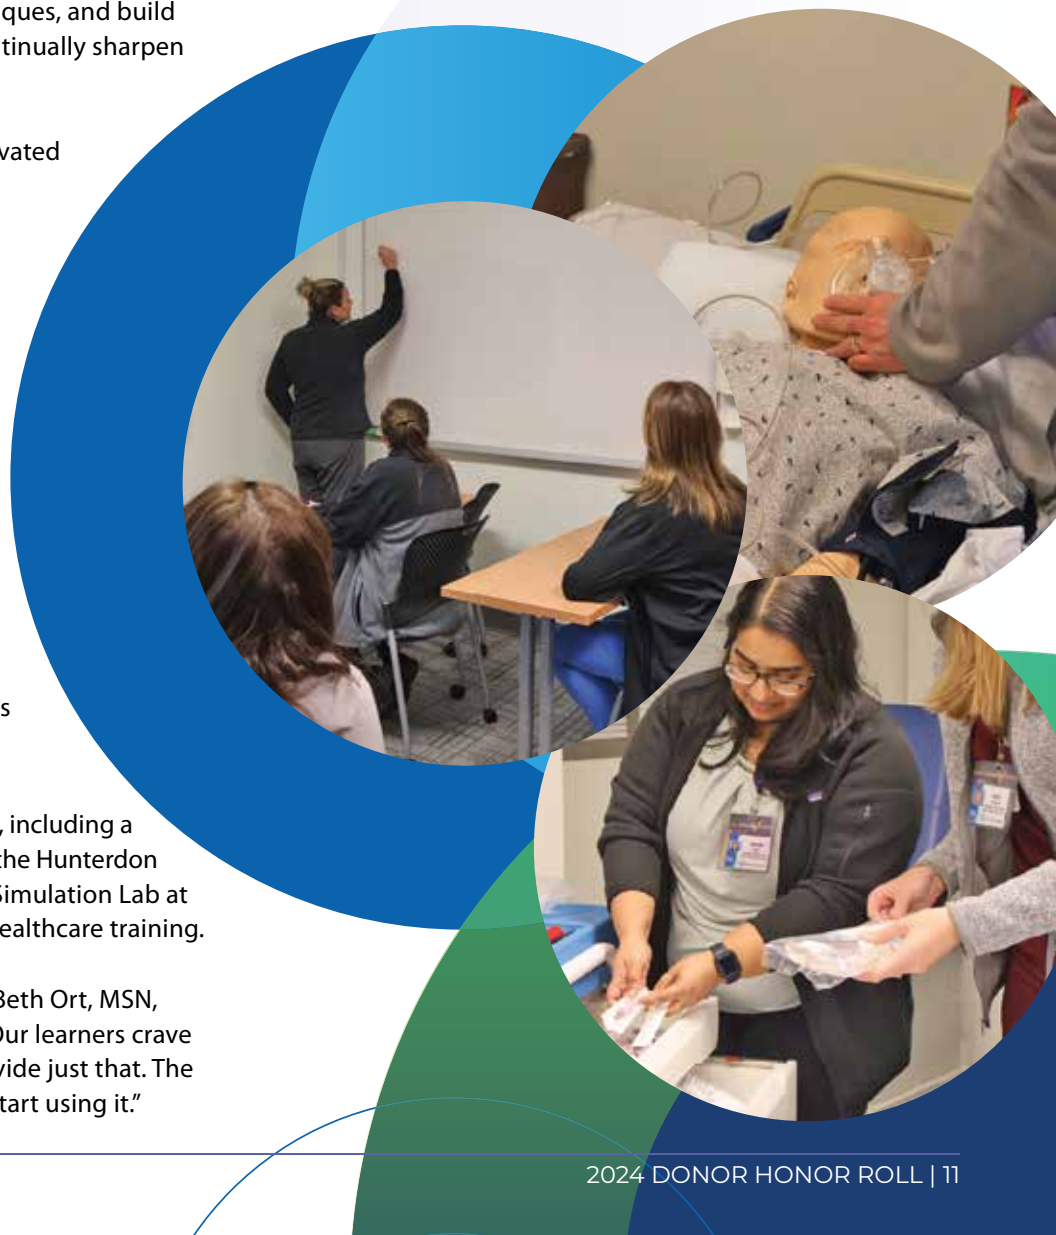

In the world of healthcare, the stakes couldn't be higher. And the impact of donors on local care cannot be overstated. Philanthropy has helped build this project from concept to fulfillment, turning an ambitious idea into an innovative space where medical professionals can hone

their skills, ensuring the highest level of patient care for years to come.

"It's a game-changer for patient safety and care quality," Beth explained. "The donors allow us to dream big and provide the

best for our community. They are the heroes in making this happen."

## LEGACY OF CARE: Honoring the Past, Equipping the Future

Every community has its caretakers—those who step up and make things better for the next generation. Rose Zander Angell was one of them. As a dedicated surgical nurse and Hunterdon County's first Welfare Director, she devoted her life to ensuring that everyone had access to the care they needed. Her unwavering commitment inspired her to champion the idea of a local hospital, shaping a future where healthcare was within reach for all.

A century ago, Rose planted her roots in Hunterdon County by purchasing Story Book Farm. At that time, it was the last county in New Jersey without a hospital. Witnessing the urgent need for local care every day, Rose understood how crucial a hospital was for her neighbors' well-being. She tirelessly advocated for this cause, even going door-to-door to gather support. Her determination laid the groundwork for establishing Hunterdon Medical Center.

Last summer, the Angell family gathered at Story Book Farm for a centennial reunion, drawing over 400 relatives and friends from coast to coast. This memorable event was more than just a celebration—it was a heartfelt call to action. Inspired by their great grandmother's legacy, Lynn Angell and her husband, David Wiant, took the opportunity to honor Rose by launching the Rose Zander Angell Nursing

Scholarship, dedicated to supporting aspiring nurses in Hunterdon County.

With an ambitious goal of raising \$100,000, Lynn and David invited family and friends to contribute in celebration of the farm's 100th anniversary. "We wanted to share who she was and make a real impact," Lynn shared. "No matter where we come from, we can all give back to our community."

The response has been overwhelming, and the scholarship is already making a difference for local nursing students dedicated to providing compassionate care close to home. With each contribution, more students will have the opportunity and support they need to follow in Rose's footsteps...shaping healthcare in our community.

The Angell family hopes this fund will continue to grow. To join them in supporting nursing education at Hunterdon, **you can give directly to the Rose Zander Angell Nursing Scholarship by scanning the QR code below.**

Your generosity will help train the next generation of nurses, ensuring compassionate care remains at the heart of our community.

## RUN, WALK, HEAL: A Growing Movement to Support Cancer Care

It's more than a race. It's a movement. The Main Street Half Marathon and 4-Mile Walk is something special—and in 2024, it was a bigger, better, more dynamic demonstration of the community's commitment to supporting cancer care at the Hunterdon Regional Cancer Center.

Over 600 participants, split between runners and walkers, paced the course, each stride contributing to the fight against cancer. The dramatic increase in the 4-mile walkers showcased the event's growing popularity and support.

**“Six years ago, my wife’s cancer diagnosis marked the beginning of a new reality for us. Today, this walk symbolizes the resilience and hope fostered through the incredible care at our local cancer center.”**

Physicians from Hunterdon Health led the charge, forming walking teams from various specialties, including podiatry, urology, anesthesia, and emergency. Dr. Edward Spector, President of Pegasus Emergency Group, shared the event's personal meaning for him: “Six years ago, my wife’s cancer diagnosis marked the beginning of a new reality for us. Today, this walk symbolizes the resilience and hope fostered through the incredible care at our local cancer center.”

The redesigned route featured the area’s natural beauty, guiding participants through the heart of the community to a finish line at the medical center—a finale symbolizing the race’s mission to unite the community in support of health and wellness. The event concluded with a vibrant finish-line celebration, complete with food trucks and live music.

Drawing in more than \$30,000—tripling last year’s total—the race was part of a suite of events that brought the community together to build a healthier future. Other highlights included the 2024 Crystal Ball, which honored MidJersey Orthopaedics for their exceptional care and contributions, and the annual Hunterdon Heroes Golf Classic, a long-running champion of the foundation’s mission. Together, these initiatives raise over half a million dollars each year, directly funding critical programs that ensure world-class care for the people of Hunterdon County.

# THE WAIT IS ALMOST OVER:

## Phillips-Barber Set to Unveil New Era of Care

It's more than just a renovation. It's a revolution in local healthcare—a revolution fueled by the generosity of our community and donors. And it's almost complete!

The renovation of the Phillips-Barber medical center in Lambertville is nearing the finish line. Throughout 2024, donor dollars were hard at work behind the scenes, transforming this beloved local medical office into a highly anticipated hub of personal care.

When those doors swing open this summer, heightened promises of hope and healing will reverberate through the neighborhoods. New high-tech medical equipment will transform patient care and bring specialized services closer to home. Advanced diagnostic tools available onsite will mean shorter wait times and less travel. The addition of more exam rooms will make access to care even easier, while an innovative teaching space for residents will help shape the next generation of doctors.

All these upgrades and improvements translate to faster diagnoses and more personalized care for patients...exactly when and where they need it. And that is the level of care our community deserves.

"This project is something we are all ready for," shared Dr. Melissa Burgos, MD, FAAFP, Medical Director at Hunterdon Family Medicine at Phillips-Barber. "We serve a large area of Hunterdon County, and residents are eagerly waiting for the re-opening of our modernized office and the new services it will bring to our neighborhoods."

One of the most anticipated aspects of the renovation is the introduction of specialty services directly within the facility. Currently, the closest specialists are at least a 20-minute drive away, leaving patients to travel at least that distance for radiology and other targeted care. When complete, Phillips-Barber will offer a range of specialty services, including radiology options such as X-ray and mammography—all conveniently available under one roof.

The finished product also lays the groundwork for future growth, paving the way for the addition of services like physical therapy to meet the area's evolving needs in the years ahead.

"This is huge for our community," Dr. Burgos emphasized. "With specialists rotating through on various days of the week, we're improving access to critical services that are in high demand. This means fewer trips to distant facilities and more comprehensive care, right in the heart of where we live."

At the same time, our trusted primary care offices will return to Phillips-Barber—more comfortable, updated, and expanded. The upgraded space will house 10 primary care providers, including nine doctors and one nurse practitioner, along with nine residents, ensuring convenient, top-notch care for more people than ever before.

The modernization of Phillips-Barber marks a significant step toward improving local healthcare. As we prepare for the grand re-opening, this project is not only transforming healthcare delivery but also bringing renewed excitement and anticipation to both staff and patients.

"It's thrilling to see all the plans come to fruition and to know that by this spring we'll be operating in a space that best meets the needs of both our medical staff and those we serve," Dr. Burgos stated.

The excitement isn't limited to the staff. The whole community is invested in the outcome and enthusiastic for the renovation to be complete. After over a year of receiving care at two temporary locations, patients are excited to see the new space finally come together. And the public's unwavering support during that time shows their strong commitment to the project's success.

"Everyone is ready to see this come together," Dr. Burgos noted. "Community support and giving have made this vision a reality. Without the generosity of so many individuals and other donors, this project and all these advancements would never have been possible."

The new and improved Phillips-Barber facility is truly a testament to the power of donors—None more significant than the incredible legacy left by Dr. Laurence M. Russell, Jr., a longtime director of Hunterdon Family Medicine at Phillips-Barber. In recognition of his support, the new campus will bear his name. Philanthropy is the foundation on which Hunterdon is building a brighter, healthier future for the people of this county.

"Donors are the lifeblood of this project," Dr. Burgos concluded. "Their generosity has ensured that we can continue to provide exceptional healthcare and expand our services to meet the evolving needs of our people."

# FUN MEETS FUNDRAISING:

## How Community Powers Care

**From car washes to tournaments, and one-time efforts to annual traditions, every fundraiser—whether it raised \$100 or \$4,000—was crucial to supporting our mission. Here are a few of the events that made a difference:**

- Lady of Leitrim Fashion Show
- Jim Hoff Hospice Fundraiser
- Hoops for a Cure
- Anne Schaffer Swingin for Pink Golf Event
- Del Val United Football Club
- Bansal Kids Car Wash
- Pink Ladies Performance Riding Team
- Bundt Park Classic Pickleball Tournament
- Ciocca Subaru of Flemington Share the Love
- Del Val Key Club
- Take Down Cancer Wrestling Tournament
- Briarwood Derby Day

Children with painted faces bounced and giggled. Families enjoyed activities like balloon animals, inflatable bounce houses, games, and food. The HealthQuest Fitness Winter Family Fun Night brought together over 300 people for a joyful evening of community spirit. But it was more than just fun—it raised over \$2,000 for the Mental Wellness Partnership Program and behavioral health services at Hunterdon Health.

That memorable evening was just one example of how our community rallied to support local care in 2024. Hundreds of

people gave their time and resources to execute nearly a dozen fundraisers, raising \$100,000 for cancer treatment, hospice care, behavioral health, and other vital programs.

It's the passion of our patients and community members that makes Hunterdon special. No matter the size, every event creates change—and anyone can be a part of it! Whether it's hosting a neighborhood gathering, organizing a birthday fundraiser, or planning a big celebration, every dollar raised impacts our community's health.

### IS YOUR NAME NOT LISTED?

It could be because:

- You made your gift after December 31, 2024, the end of the 2023 fundraising year. Gifts received on or after January 1, 2024 will be recognized in our next Report to Donors.
- You asked that your gift be anonymous.
- In effort to reduce our carbon footprint, only donors of \$1,000 or more are listed. For a complete list of donors, please visit [hunterdonhealthfoundation.org](http://hunterdonhealthfoundation.org)
