

Hunterdon Health

2026 Parenting and Childbirth Education Services

Class Offerings and Schedules

Dear Expectant Parents,

Thank you for choosing Hunterdon Medical Center for your upcoming stay on our Maternity and Newborn Care Center! This should be a very exciting time in your life but we realize that you may have some concerns as well, especially during these unprecedented times. We want to assure you that we are here to help support you through your pregnancy, birth and postpartum experience.

Our Parenting and Childbirth Education Department offers a variety of classes to prepare you and your partner for your upcoming delivery and prepare you for your baby's arrival. Evidence clearly shows that taking a childbirth class (either Lamaze or Hypnobirth classes) lowers the chances of having a cesarean birth by about 40% for low risk women. Also, our new Spinning Babies® class will teach you techniques to use during pregnancy for comfort as well as prepare your body for labor and birth. Please review the attached information to learn about all the classes we offer to help prepare you for your birth and early parenting journey.

After you review the information, please feel free to call or email me with any questions you may have. I am happy to help guide you through this most exciting time in your life!

Sincerely,

Felice

Felice Lewaine, BSN, RN, CLC, CCE

- Breastfeeding I
- Breastfeeding II

Postpartum Support Groups

- Babysteps - Birth to Walkers
- Toddler Steps
- Breastfeeding Support Group
- Beyond the Baby Blues™
- Hunterdon Healthcare Baby Steps
- Mindfulness for Mamas

Hunterdon Health

Childbirth Education

CHILDBIRTH PREPARATION—MUCH MORE THAN JUST BREATHING!

These are classes for expectant mothers and their partners as they prepare for their first birth experience. Childbirth classes give mothers all the information they need to be prepared to give birth. Recent research shows that low risk women who take an established childbirth class have a much lower risk of have a Cesarean birth! At Hunterdon, we offer two types of childbirth preparation classes: Lamaze classes in several formats and HypnoBirthing® classes. You should choose either Lamaze or Hypnobirth based on the vision you have for your birth. Whichever option you choose, keep in mind that rehearsing the skills you learned in class is essential in remembering the skills that will help you during your labor.

SPINNING BABIES® BIRTH PREPARATION CLASS: Spinning Babies® Birth Preparation Class highlights your baby's active role in birth. During labor the baby needs to pass through the three levels of the pelvis. Learn techniques to help your pelvis and it's muscles that support or restrict your pelvis levels. Together, you and your birth partner can use these techniques before and during labor to help "make room for baby!" Spinning Babies® reveals how the baby can find optimal positions for labor and make birth less painful and even pleasurable!

This class is for expectant parents only.

- *Baby's job in labor is to rotate!*
- Learn about Spinning Babies® Techniques
- Daily Essential Activities
- The Three BalancesSM help birth muscles to relax and add comfort now to ease birth later.
- Birth Positions that open the pelvis that let the baby come through more easily
- Bring your birth partner to learn how to help you in pregnancy for comfort in labor and birth

New class offering

LAMAZE CLASSES: Hunterdon Medical Center Lamaze classes are for anyone expecting a baby! In the classes you will learn all about labor and birth. Comfort measures, a hospital tour, medical interventions, medications and anesthesia are all covered! Couples are encouraged to use the comfort measures and breathing techniques that work for them. Whether you choose to use medications or not, these classes provide you with the information you will need to be able to relax and work with your body as it does the work it knows how to do. Working with your body helps the process to go faster and easier.

WEEKEND LAMAZE: These classes run monthly on a Saturday, 8:30 a.m. – 4:30 p.m., and provide all the information you need in a live class.

Hunterdon Health

Childbirth Education

UNDERSTANDING BIRTH eCLASS: Our online childbirth class is ideal for those expectant parents who can't attend an on-site childbirth class due to work schedule, time constraints or medical conditions.

The eight-chapter program is an interactive, web-based class that uses videos, personal birth stories, animations, activities and games to teach all the essential information parents need to know to prepare for their birth.

Our online childbirth classes will help you:

- Understand pregnancy – what's happening to your body, discomforts, warning signs, nutrition, exercise, and more.
- Learn about labor – preparing for birth, pre-labor signs, onset of labor, 3D animation of labor process, and more.
- See how the stages of labor unfold – watch amazing real-life birth stories.
- Discover helpful comfort techniques – breathing, relaxation, massage, visualization, focal points, hydrotherapy, labor and pushing positions, advice for partners, and more.

Your eClass registration includes:

- Online access for 90 days.
- One on-site labor rehearsal class which will answer your questions and provide more important information. This class is to be attended after completing the online program.

Please try to register for all classes early in your pregnancy so you may completely finish the online component of your class in time for your baby's arrival.

REFRESHER LAMAZE: A class for couples who have completed Lamaze Preparation for Childbirth with a recent pregnancy. The refresher class includes a review of breathing, relaxation, comfort and pushing techniques, recent developments in maternity care, how this labor and delivery may differ from before, medical interventions and Cesarean and VBAC (vaginal birth after cesarean) information, as needed. If a couple has never completed a full childbirth preparation class with a previous pregnancy, they should plan on taking a full series rather than a refresher. We request that you register by the sixth month of your pregnancy. Your class will be scheduled on the month prior to your due date.

Please check out our eClass option, which is also great for refresher couples unable to attend class.

Hunterdon Health

Childbirth Education

HYPNOBIRTH® CLASSES “Taking the Birthing World by Calm”: HypnoBirthing® is a different approach to childbirth education that uses hypnosis. Hypnosis is a naturally induced state of relaxed concentration in which suggestions are made to the subconscious mind. The subconscious mind influences choices we make and what we think and feel. This profound state of deep relaxation can be achieved through daily practice. You will be totally relaxed, fully in control and aware of the birthing process and will be able to determine the extent to which you feel the uterine contractions.

Birth will be experienced in an atmosphere of calm and relaxation, free of fear and tension that cause pain. Your body's natural endorphins (pain killing substances) replace the stress hormones that create pain. You are fully awake and involved during your baby's birth.

HypnoBirthing® is the choice you will want if it is important to you to have birth progress as naturally and intervention free as possible. The cost of HypnoBirthing® is slightly higher than our regular Lamaze classes because of the special materials used and the smaller, more personal classes involved.

HypnoBirthing® classes are only offered on weekday evenings. There is a HypnoBirth Class refresher option for couples who have previously participated in a HypnoBirth Class series.

Please call (908) 788-MOMS(6667) for more information.

Parenting Education

HI, NEW BABY!: If you are expecting or planning to adopt a baby, we know you have all sorts of questions. Come join us at “Hi, New Baby!” - our baby care class. We'll tell you what to expect in the first weeks, from bathing and feeding to finding time for yourself.

THE HAPPIEST BABY ON THE BLOCK™: Learn an extraordinary way to calm your crying baby. Expectant and new parents of babies younger than three months will learn step-by-step how to help their babies sleep longer and how to soothe the fussiest infant in minutes... or less!

POSTPARTUM SUPPORT GROUPS: Once your baby arrives, join us in our weekly parenting classes.

- **Babysteps:** For parents and infants, birth to walkers, meets in-person and virtually weekly on Thursdays, 1:00 pm – 2:30 pm.
- **Toddler Steps:** For parents and children 1-3 years old, meets the third Thursday of each month, 11:30 am - 12:30 pm..
- **Hunterdon Healthcare Babysteps:** Join on Facebook for virtual support.
- **Beyond the Baby Blues & Mindfulness for Mamas**

Lactation Services

at Hunterdon Medical Center

Experts agree that breast milk is best because it is human milk for human babies. Our Lactation Consultants will assist you in beginning breastfeeding with:

MONTHLY PRENATAL BREASTFEEDING CLASSES: If you are planning to breastfeed or if you are not sure about breastfeeding, this class will provide you with the information needed to make an informed decision.

BREASTFEEDING SUPPORT GROUP: This program provides nursing mothers a place where information, knowledge and experience can be shared in a relaxed and caring environment. Meets in-person and virtually the first Thursday of every month from 12:00 pm – 1:00pm.

ONCE YOUR BABY IS BORN: Our certified Lactation Consultants can provide inpatient, outpatient and telephone consultations (fee involved with some services).

BREASTFEEDING PART II: This class will help mothers establish and maintain a sufficient milk supply by pumping as well as teach how to make a successful transition back to work.

BREAST PUMP RENTAL: If you find you have a need to rent a breast pump, you will be able to do so here.

SPINNING BABIES®

Parents: What is Spinning Babies®?

New class offering

Attention, Parents!

Are you ready for a pregnancy and birthing experience like no other? Say goodbye to discomfort during pregnancy and embrace ease in birth! We are thrilled to introduce you to Spinning Babies® Birth Preparation Class, a revolutionary approach that is changing Birth on Earth!

Spinning Babies® believes that fetal positions are not random; babies naturally fit the space available to them. But here's the exciting part: it's not just about the size of the baby or the pelvis. Birth anatomy can be flexible and we're here to show you how.

Spinning Babies®, created by Gail Tully, offers a fresh and anatomically-based perspective on birth. Our unique approach allows you to see the miracle of birth through a whole new lens. When you attend a Spinning Babies® Birth Preparation Class, you'll learn techniques that will forever change the way you think about birth.

So, what's the secret to an easier birth? It all starts with understanding your baby's position. By exploring the alignment of the womb and pelvis through the lens of the baby's position, we uncover valuable insights that guide our preparation. Instead of focusing on how far dilated you are, we shift our attention to finding answers to the questions: Where's Baby?

Where is the baby positioned? Where is the womb in relation to the pelvis? Which level of the pelvis is the baby maneuvering? These inquiries open up a world of possibilities, allowing us to support physiological birth, reduce fear, and enhance the bond between you and your precious little one.

Spinning Babies® mission is clear: to offer you an easier childbirth with fetal positioning through physiology before force. They're dedicated to empowering parents and birth professionals worldwide with this groundbreaking knowledge.

So, join us on this incredible journey towards a more comfortable pregnancy and an extraordinary birthing experience. Discover the wonders of Spinning Babies® and unlock the secrets of your baby's position. Get ready to embrace "comfort in pregnancy and ease in birth" as we bring physiology first in the way we approach childbirth.

Together, we can make your birth story one for the books!

Hunterdon Health

LAMAZE CAN HELP SIMPLIFY YOUR PREGNANCY AND BIRTH

A recent survey of women in their childbearing years found that those who took Lamaze were more satisfied with the care they received in pregnancy and birth than women who took a childbirth education class other than Lamaze, or those who took no class at all. Whether you are a first-time mother or an experienced parent, you may find the task of giving birth overwhelming. Lamaze education is designed to give you the information you need to make the healthiest decisions for your baby, and give you more confidence in your body's natural ability to go through the process. For low risk women, this will decrease your chance of a cesarean birth significantly.

Simplify Birth! Childbirth can be demanding on your body and mind, but Lamaze can help simplify the process with a natural approach. It can alleviate your fears and help you manage pain—all with the goal of a safe and healthy birth, based on current evidence.

- Lamaze takes the mystery out of the childbirth process by helping you better understand how your body works, and what you can do to benefit yourself and your baby during the childbirth process
- There are many ways to manage the challenges associated with birth—including pain. Lamaze can help you understand all of your options so you can make informed decisions and learn how to achieve greater comfort during labor and birth.

Use a Proven Approach! Lamaze practices are based on the best medical evidence available, and are designed to promote a safe and healthy pregnancy and birth.

- Every mother wants the best care possible in pregnancy and birth. By becoming familiar with the key components of good care, you can be an active partner with your provider in getting optimal care for you and your baby.
- Lamaze education is based on the best medical evidence. Millions of pregnant women have taken Lamaze classes over the years. Lamaze is based on principles that are just as relevant today as they always have been.

Improve Your Understanding! The best start for mothers and babies is a safe and healthy pregnancy and birth, based on current evidence. Lamaze can help you achieve this—and help you feel confident about giving birth—by serving as a resource for information about what to expect and the best options available during the childbirth process.

- Lamaze is an essential resource. It can help you understand how decisions about your care during pregnancy and childbirth can positively affect you and your baby.
- Lamaze can help you feel more prepared for and satisfied with your childbirth experience
- By educating yourself about pregnancy, childbirth and early parenting and rehearsing what you have learned, you are making a good investment in yourself and your baby.

Work as a Team! You, your family, your provider and your Lamaze educator each have an important role in the process of pregnancy, childbirth and early parenting. All of you are a community that works together to help you and your baby achieve a safe and healthy outcome.

- Lamaze can help you work effectively with your provider so that together, you can make decisions you feel good about, and ensure a safe, healthy and satisfying childbearing experience.

For more information about Lamaze and how it can help simplify the pregnancy and birthing process, please call (908) 788-MOMS(6667) or visit www.lamaze.org.

HypnoBirthing

INTERNATIONAL
The Mongan Method

HYPNOBIRTH® CHILDBIRTH CLASSES

Taking the Birthing World by Calm. HypnoBirth® classes use hypnosis, a naturally induced state of relaxed concentration during which helpful suggestions are made to the subconscious mind. The subconscious mind influences choices we make, and what we think and feel. It is our belief that everyone can use hypnosis, provided they are willing.

The HypnoBirth® belief is that, with deep relaxation, taught with the use of self-hypnosis, the body births in a relaxed serene manner. The philosophy supports the belief that pregnancy and birthing is a very beautiful and special time of your life. Hypnosis enhances your body's natural ability to give birth.

During hypnosis the mother is fully awake, and able to talk, but is totally relaxed and fully in control. She will be able to determine the extent to which she feels the uterine contractions. Muscles and nerves may still send pain impulses, but the pain can be minimized or completely blocked with the use of hypnosis. Hypnobirth® classes are usually the choice for expectant parents who prefer not to use pain medications or anesthesia, and are looking for a more natural approach to birthing, one which is as intervention free as possible. On average, labors can be up to 50% shorter with the use of these techniques, due to the relaxation that occurs. Our classes are small and personal. The techniques you learn through deep relaxation and the power of positive thinking can be used not only for birthing but can be adapted to many areas of your life. Even if medications or a Cesarean birth become necessary, the skills you learn in class can be applied to your birthing experience.

Certified HypnoBirth® Practitioners teach our classes. Because of the smaller more personal classes, and the special materials used, HypnoBirth® classes are priced slightly higher than our Lamaze classes. You would attend one evening per week for five weeks, 6:30 p.m. – 9:00 p.m. Parents should try to register for classes early in your pregnancy.

Please call Parenting and Childbirth Education Services at (908) 788-MOMS(6667) if you have any questions, otherwise please use the enclosed registration form to reserve your place. For more information, you may also visit www.hypnobirthing.com.

Hunterdon Health

Can't Come to Class? OUR "UNDERSTANDING BIRTH" eCLASS IS JUST RIGHT FOR YOU!

Our online childbirth class is ideal for those expectant parents who can't attend an on-site childbirth class due to work schedules, time constraints, or medical conditions. The eight-chapter program is an interactive, web-based class that uses videos, personal birth stories, animations, activities, and games to teach all the essential information parents need to know to prepare for their birth. And because we know nothing can take the place of personal attention, once you complete your eClass, you will attend an in-person class which provides time to get questions answered, review, and practice your skills.

Our online childbirth class will help you:

- Understand pregnancy - what's happening to your body, discomforts, warning signs, nutrition, exercise, and more.
- Learn about labor - preparing for birth, pre-labor signs, onset of labor, 3D animation of labor process, and more.
- See how the stages of labor unfold - watch amazing real-life birth stories.
- Discover helpful comfort techniques - breathing, relaxation, massage, visualization, focal points, hydrotherapy, labor and pushing positions, advice for partners and more,

To register, complete and submit the enclosed registration form.

The price includes 90-day access to the eClass plus the follow-up class.

EXPECTING AGAIN?

**Why should you take a Lamaze Refresher if you've
"been there and done that?"**

Even though this is not a first pregnancy for either of you, there are good reasons to take a Lamaze Refresher class...

- You may have forgotten more than you think you have.
- This pregnancy and labor will be different from the last... learn how.
- You may have misplaced the materials you received the first time—here's a chance to receive new and updated materials!
- Changes may have taken place since your last delivery. This is especially true if this will be your first birth at Hunterdon Medical Center.

Second and subsequent pregnancies go by almost without notice, because you are so busy with your other children. Here's a chance to devote some time and thought to each other and to this pregnancy...a chance to think about your last birth. A chance to get past the "fear of the known" and discuss what worked and what didn't last time? What will you change this time? What is your vision for *this* birth? This class will not only refresh your memory, but allow you to formulate some goals for your next labor.

Remember that Lamaze skills are "conditioned responses". This means that you need to review and begin to practice once again, so the techniques are fresh in your mind—and automatic—once again.

Hunterdon Medical Center's Lamaze Refresher is specially designed for busy families. It's a single evening class so you only need to find a sitter once!

Cost: \$116.00

**Contact Felice Lewaine at (908) 788-MOMS(6667) to arrange a
class date that is convenient for you.**
