

PARTNER WITH HUNTERDON HEALTH FOUNDATION IN

At Hunterdon Health, care is personal. Our patients are our neighbors, our colleagues, and often our own family members. When our community comes together through Hunterdon Health Foundation, it directly supports the doctors, nurses, and teams who care for us all—every day, in every season of life.

Sponsorships help keep advanced, compassionate healthcare close to the people who depend on it, while strengthening the community we all call home.

WHY SPONSOR?

Your sponsorship does more than put your logo on a banner.

It helps fund:

- Life-saving equipment
- Patient-centered programs
- Facility upgrades and new services
- Financial support for patients and families

These events are some of the most visible and trusted fundraising moments in the region—giving your organization meaningful exposure while making a tangible difference.
