

Hunterdon Health

Hunterdon Health Foundation

E-NEWSLETTER

Thank you for the continued ways you support Hunterdon Health. Your involvement—whether through events, programs, volunteerism, or simply staying connected—plays an important role in the care we provide and the work we're able to do throughout the year. It's support we don't take for granted, and it's felt every day across our health system.

You'll see a short 2025 recap video included here—a look back at the people, events, and shared efforts that defined the year. It's a reminder of what can happen when so many come together around a common purpose, and the role you played in

joining us at one or more of the gatherings planned this year, including our upcoming Lunch & Learn with Foundation Board member and extraordinary physician, Dr. Laurie Turenne-Kolpan, who will lead a thoughtful discussion on integrative medicine and its role in whole-person care.

I also want to recognize a few recent examples of that support in action. On February 4, Chipotle will partner with us to benefit our Mental Wellness Partnership Program, helping expand access to behavioral health resources for individuals and families in our region. And thanks to the time and dedication of the volunteers who staff The Lobby Shop, more than \$72,000 was raised in 2025 to support patient care and programs across

that impact. You'll also find an update on the early stages of our Cancer Center renovation, including progress made as we move this important project forward.

One of the things I value most about our donors is the way they show up—not just financially, but by being present and engaged. I hope you'll take a look at what's ahead and consider

Hunterdon Health—an effort that often happens quietly, but makes a very real difference.

As we move forward, we remain focused on the work ahead and the people who make it possible. I am grateful for the steady support of our donors and the trust you place in Hunterdon Health. Thank you for being part of this work—I look forward to continuing it together in the months ahead.

With gratitude,

Phil Beekman
Senior Vice President,
Hunterdon Health Foundation

Looking Back on 2025

From meaningful milestones to everyday moments of care, this video captures what 2025 looked like across Hunterdon Health—thanks to the support of our donors and friends.

What's Happening at Hunterdon Health Foundation?

What began as small purchases made by patients, visitors, and staff throughout the year added up to a meaningful impact for Hunterdon Health. In 2025, the Lobby Gift Shop at Hunterdon Medical Center raised \$72,493.10 in support of patient care through everyday sales that help brighten hospital stays.

Operated by a dedicated team of volunteers, the Lobby Gift Shop is located on the first floor of Hunterdon Medical Center. All proceeds benefit Hunterdon Health Foundation, providing flexible support for the areas of greatest need across the hospital...**(cont.)**

Join the conversation at Beaver Brook Country Club on March 16th from 12:00 PM to 2:00 PM. Special guest, Dr. Laurie Turenne-Kolpan from Your Whole Health will be discussing Integrative Medicine and her new approach to personalized care.

Integrative Medicine is a health care model that focuses on lifestyle changes, medication, and supplements. This type of care shifts from the sole reliance on medicine to single-handedly cure disease. We look...**(cont.)**

The Islamic Center of Hunterdon recently made a thoughtful donation to Hunterdon Health, providing a collection of prayer rugs and Islamic religious texts to support Muslim patients and families during their time at the hospital. The donation included prayer rugs in a variety of colors and sizes, along with English and bilingual English-Arabic copies of the Qur'an, pocket-sized devotional texts, and additional faith-based books focused on prayer, reflection, and spiritual comfort. These resources will be made available to patients and visitors seeking quiet moments of worship..**(cont.)**

Beaming Beyond Cancer Campaign Update

Important milestones continue to move this project forward. Construction permits have been submitted to the Department of Consumer Affairs, and final

interior finishes are now being selected. An ICRA barrier will be installed shortly as preparation work begins. To support construction, the Compounding Pharmacy has relocated to the second floor, and Inpatient Oncology Rehabilitation has been temporarily moved to the third floor. These behind-the-scenes steps keep the project on track while ensuring patient care continues without interruption.
